

HYDRAULIC PISTON ACCUMULATORS

Engineered for reliable energy storage, pressure control, and hydraulic system performance

HYDRAULIC ENERGY STORAGE FOR DEMANDING EQUIPMENT

Aggressive Hydraulics® piston accumulators provide stored hydraulic energy where and when your system needs it. They can help manage pressure changes, support actuator performance during peak demand, and improve overall hydraulic system response.

Designed and manufactured with the same attention to application requirements as our Purpose-Built™ hydraulic cylinders, our accumulators can be configured to meet a wide range of equipment and system needs.

Piston Accumulator Advantages

- Ease of maintenance
- Multiple mounting configurations and orientations
- Compact design
- Responsive performance

HOW ACCUMULATORS SUPPORT EQUIPMENT PERFORMANCE

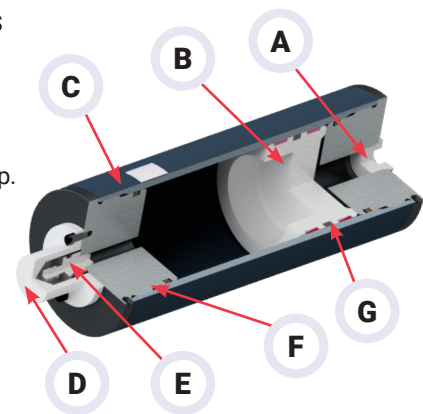

OEMs and system integrators use piston accumulators alongside hydraulic cylinders to manage energy, pressure, and motion within demanding hydraulic systems.

Common Applications Include:

- Reducing shock during actuator reversal
- Improving stability in material handling and lifting systems
- Providing emergency actuation if main pump flow is lost
- Dampening pressure fluctuations within hydraulic systems

Piston Accumulator Components

- A.** Large SAE O-ring Boss port's for simple system connection & low pressure drop.
- B.** Lightweight aluminum piston for quick response.
- C.** High strength carbon steel tube with honed ID for long seal life.
- D.** Aluminum guard protects charge valve against damage.
- E.** Stainless steel valve for easy adjustment of gas precharge.
- F.** Threaded ductile iron end caps for serviceability & long fatigue life.
- G.** Low leakage piston seal and wear bearings for broad fluid compatibility.

**All Hydraulic Piston Accumulators are manufactured in the U.S.A.
and are backed by the Aggressive Hydraulics Cylinder Warranty.**

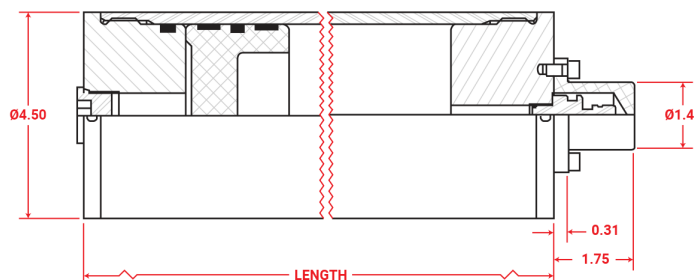

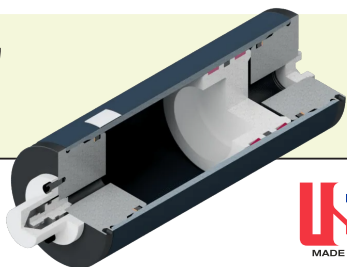

- Our standard accumulators are built to standard specifications.
- Simply order by contacting our sales team and provide the part number above.
- Customized options available upon request.
